

Who should attend?

- Food Service Managers
- Manager Trainees
- Front Line Supervisors
- Restaurant Owners
- Anyone wanting food-service management certification on food safety

What will you learn?

The Challenges to Food Safety:

The need for food safety, hazards that threaten food, and guidelines for training employees in personal hygiene.

Developing a Food Safety System:

Basics of a Hazard Analysis Critical Control Point (HACCP) food safety system, and methods for training employees to run the system.

The Flow of Food:

Methods for purchasing, receiving, storing, preparing, cooking, holding, serving, cooling, and reheating food safely.

Maintaining Sanitary Facilities and Equipment:

Designing facilities, choosing equipment, cleaning and sanitizing, and controlling pests.
